

VIVA-VOCE CONDUCTED BY THE DEPARTMENTS

As part of academic curriculum, Viva-Voce is a part of the internal and external assessment method followed in every department. The purpose is to evaluate the deep understanding of the students in respective topics and their ability to defend the situation in right manner. This approach is very important to demonstrate the understanding of subject matter. This includes criticism from the expert in that topic and in order to showcase the knowledge of the student. Viva-Voce provide a holistic evaluation of a student's understanding of a particular subject or research project. It goes beyond written assessments, allowing examiners to assess the depth of knowledge, critical thinking skills, and the ability to articulate ideas. Viva-Voce has been conducted systematically in each department for all the students irrespective of subjects.
