PROGRAM REPORT

IPR–DATA PROTECTION AND PRIVACY

16.05.2023

On May 16, 2023, the Computer Science Department, in association with the Internal Quality Assurance Cell (IQAC), organized a webinar focusing on "Data Protection and Privacy" as an integral component of Intellectual Property Rights at 10:30 AM. This insightful session aimed to delve into the critical aspects of safeguarding data in the digital age, emphasizing the significance of privacy in the realm of intellectual property. The webinar provided a platform for participants to gain comprehensive insights into the evolving landscape of data protection, addressing the legal, ethical, and technological dimensions that shape the contemporary understanding of intellectual property rights.

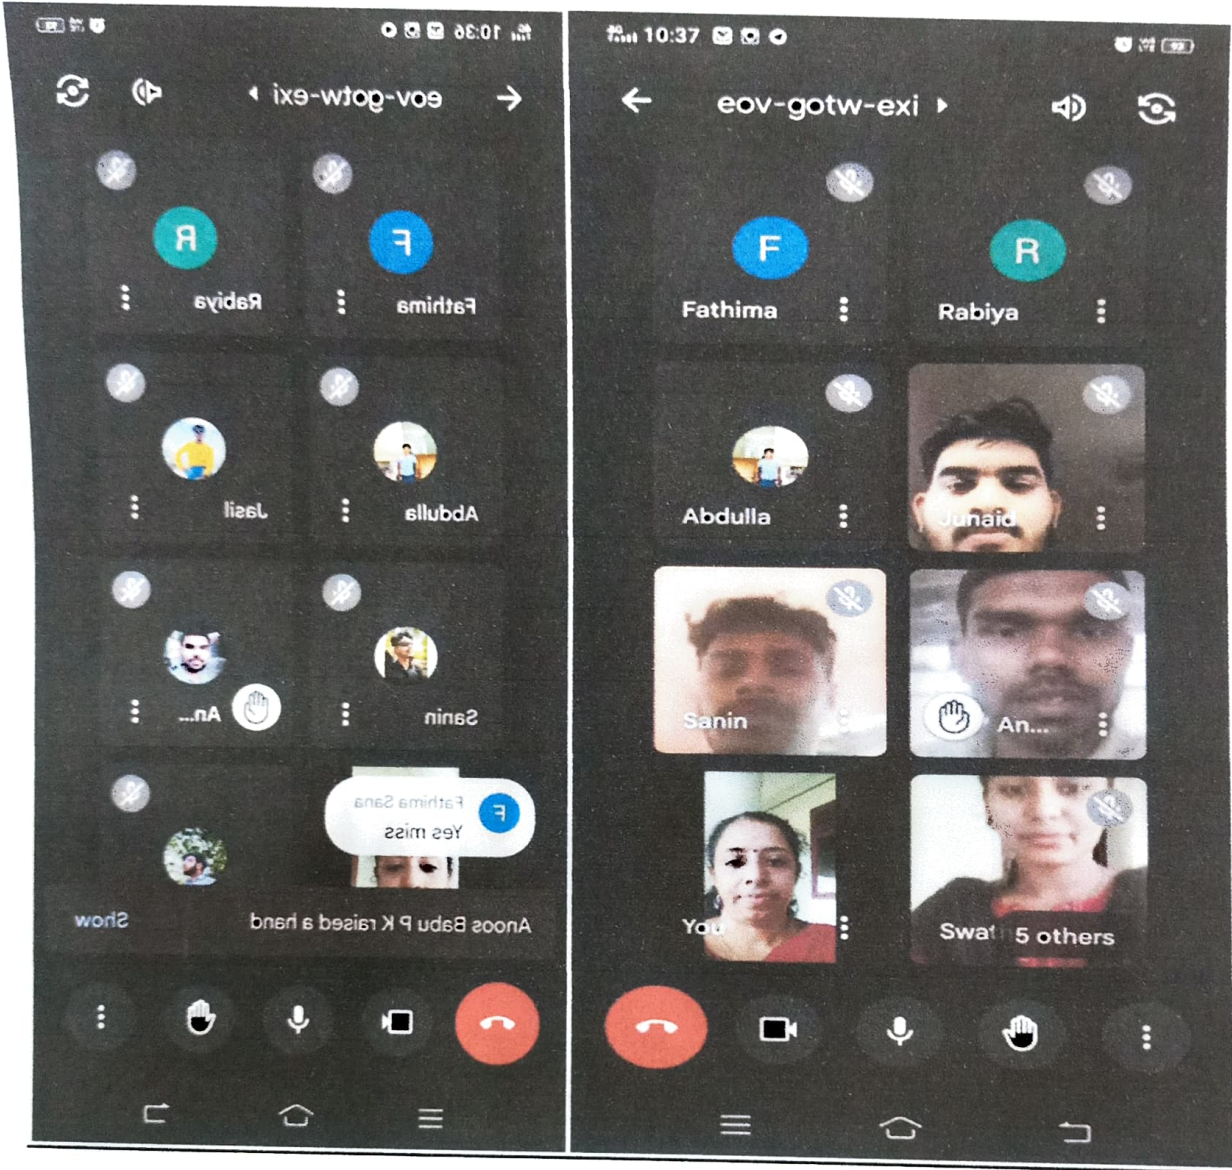

Ms. Soumya P S, an expert in the field, skillfully led the session, bringing her wealth of knowledge and experience to the forefront. Ms. Soumya's expertise in data protection and privacy illuminated the intricacies of intellectual property rights, offering attendees a nuanced understanding of the challenges and opportunities in this dynamic domain. Through engaging presentations and real-world case studies, participants were able to grasp the practical implications of data protection laws and how they intersect with intellectual property, enabling them to navigate this complex terrain with a heightened sense of awareness.

The collaboration between the Computer Science Department and IQAC in organizing this webinar underscored the commitment of the academic institution to fostering a culture of continuous learning and staying abreast of contemporary issues. About 25 participants attended the session. Participants left the session equipped with valuable knowledge to contribute to the ongoing discourse on data protection and privacy, furthering the importance of intellectual property rights in an increasingly digitalized world.
