PROGRAM REPORT

A WEBINAR ON GUIDELINES FOR WRITE A RESEARCH PAPER

21.05.2023

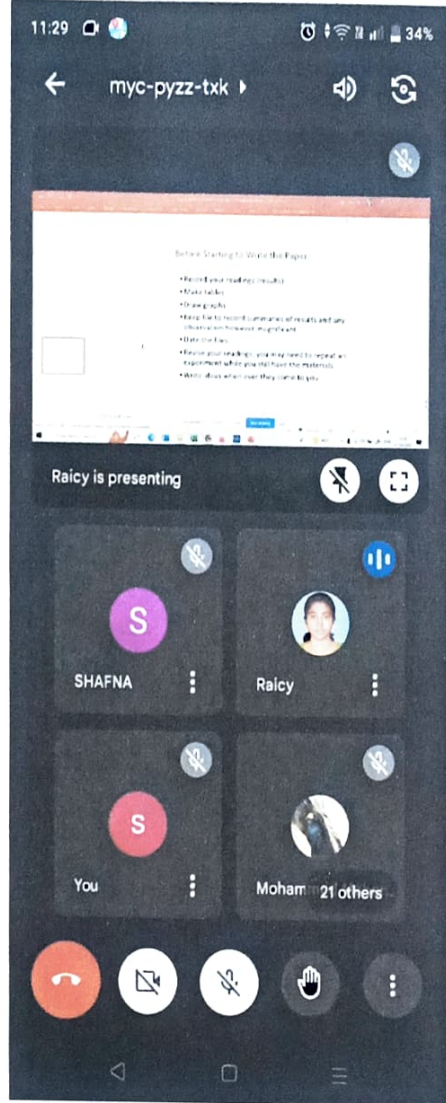

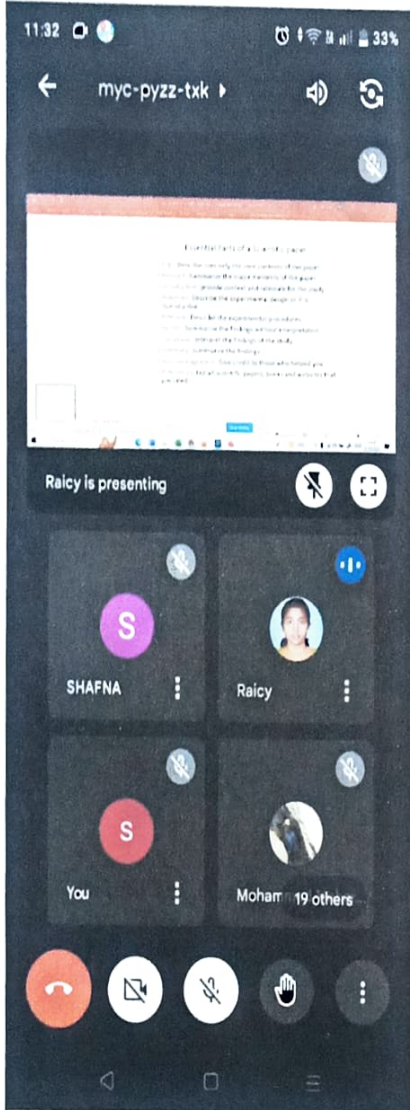

PG Department of Applied Geology in association with IQAC conducted a webinar on the topic “**Guidelines to write a research paper**”. The session was handled by Dr. M.C Raicy on 21st May 2023 11:00 am via Google meet. In the session she mentions that writing a scientific paper is an essential skill for researchers to communicate their findings and contribute to the scientific community. 26 students participated in the session.

This webinar provides a comprehensive guide to writing a scientific paper, including the key components, structure, writing style, and tips for effective communication. She mentioned key Components of a Scientific Paper such as Title, Abstract, Literature Review, Methodology, Results, Discussion, Conclusion and References. She described that title should be concise, informative, and accurately reflect the content of the paper. She mentioned that Methodology describes the research design, data collection methods, and analysis techniques used. Provide sufficient details for others to replicate the study. Results form the main part of the research paper which present the findings of the study objectively. Use tables, figures, or graphs to present data effectively. Organize the results logically and provide appropriate statistical analysis. Discussion part interprets the results in the context of the research objectives and existing literature. She also mentioned the structure and writing style of a research paper.
