PROGRAM REPORT

COVID CARE DESK

02.06.2020

In response to the ongoing COVID-19 pandemic, the College Union for the academic year 2020-2021 launched a COVID Care Desk Program on 02.06.2020 to support and safeguard the health and well-being of postgraduate exam writing students of the college and School of Distance Education. The program was inaugurated by the College Principal, Dr. Naveen Mohan, who emphasized the importance of these initiatives during these challenging times. Mask Distribution: As a part of the program, masks were distributed to all postgraduate exam writing students. The distribution aimed to promote safety measures and ensure that students had access to necessary protective gear. This was coordinated by 5 union members.

A dedicated help desk was established to provide information, guidance, and assistance related to COVID-19. Trained volunteers were available to address queries, provide information on safety protocols, and offer support to students in need. The program was officially inaugurated by College Principal Dr. Naveen Mohan, who commended the College Union for their proactive efforts in ensuring the safety and well-being of the college community during the pandemic. The COVID Care Desk Program had several objectives. To promote and reinforce COVID-19 safety measures among students, To provide masks to postgraduate exam writing students to reduce the risk of virus transmission, To offer a dedicated help desk to address students' concerns and questions related to COVID-19.

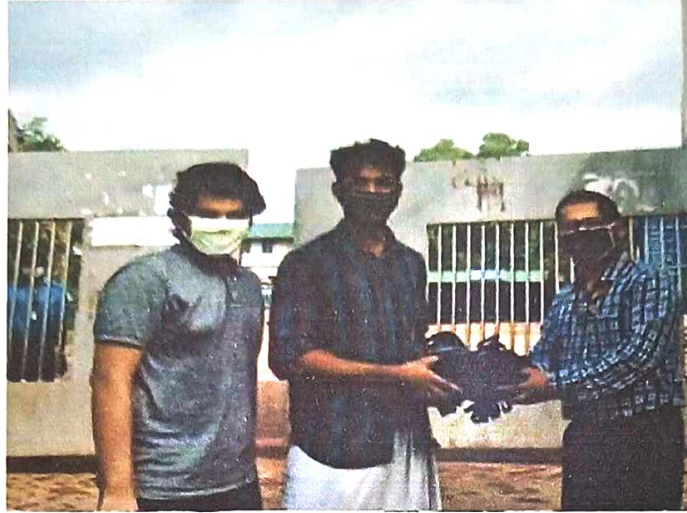

The COVID Care Desk Program, including mask distribution and the COVID-19 help desk, organized by the College Union for the academic year 2020-2021, was a commendable effort to support and protect postgraduate exam writing students during the pandemic. The program not only provided essential protective gear but also served as a valuable resource for students seeking information and assistance related to COVID-19.
