E-GOVERNANCE REPORT

YEAR 2022-2023

During the academic year 2022-2023, GEMS Arts and Science College embraced a transformative journey towards complete e-governance, marked by crucial developments. The scope of Embase was further broadened to include assignment submissions, seminar management, internal mark entry, and library operations. This expansion aimed to improve efficiency, reduce paperwork, and enhance the overall educational experience.

Despite the strides made in e-governance, challenges persisted, including faculty adaptation, student navigation, and administrative adjustments. To overcome these obstacles, the institution continued its commitment to extensive training programs. Faculty members received specialized training to guide students effectively in using Embase for attendance tracking and other academic tasks.

The academic year 2022-2023 stands as a testament to the institution's perseverance and dedication to adopting Embase for complete e-governance. The application of Embase across various functions has streamlined administrative processes, reducing manual efforts and improving accuracy. Students have benefited from easy access to attendance records, assignment submissions, and seminar information, empowering them to take control of their learning journey. Additionally, the institution is now better equipped to manage resources efficiently and sustainably, thanks to Embase's comprehensive functionalities.
