COLLEGE CLEANING - GREEN CAMPUS- NSS

DATE: 09/03/2019

PROGRAM REPORT

On March 9, 2019, Gems College NSS Unit orchestrated a dedicated campus cleaning program with a singular focus on fostering a plastic-free environment. The initiative aimed to address the pervasive issue of plastic pollution by implementing a series of "Plastic-Free Campus Initiatives."

The NSS Unit mobilized students and faculty members in a collective effort to clean the college premises and raise awareness about the detrimental effects of plastic on the environment. Participants engaged in thorough cleaning, removing plastic waste from various areas of the campus. Simultaneously, educational sessions were conducted to enlighten the college community about the ecological consequences of single-use plastics.

The program's core objective was to instigate a cultural shift towards sustainable practices. By emphasizing the importance of reducing plastic usage and promoting responsible waste disposal, the NSS Unit aimed to transform the college into a model of environmental conscientiousness.

Through this initiative, Gems College NSS Unit not only contributed to immediate cleanliness but also planted the seeds for a long-term commitment to sustainability. The Plastic-Free Campus Initiatives underscored the NSS Unit's dedication to creating a healthier and more environmentally responsible college community.

**GREEN CAMPUS AND CLEAN CAMPUS – GANDHI JAYANTHI OBSERVATION-
NSS 02/10/2018**

PROGRAM REPORT

On October 2, 2018, Gems College NSS Unit undertook a transformative initiative in honor of Gandhi Jayanti, organizing a comprehensive campus cleaning and cleanliness drive coupled with a sapling plantation program. Aptly named "Green Campus Clean Campus," the event aimed to instill Gandhian principles of cleanliness and environmental stewardship among the college community.

Students, faculty, and staff came together to meticulously clean and beautify the campus premises, fostering a sense of collective responsibility. The emphasis on cleanliness resonated with Mahatma Gandhi's advocacy for sanitation as an integral part of personal and social well-being. The event sought to echo his famous words, "Cleanliness is next to godliness."

Simultaneously, a sapling plantation drive was conducted to contribute towards environmental sustainability. The college grounds were enriched with the addition of new trees, symbolizing a commitment to ecological balance and a greener future.

The "Green Campus Clean Campus" program not only physically transformed the college environment but also cultivated a spirit of unity and eco-consciousness. By aligning with Gandhi's principles, the NSS Unit at Gems College successfully promoted a holistic approach to cleanliness and environmental responsibility among its members.

DATE: 28/7/2018

PROGRAMME REPORT

The Department of Management Studies hosted a remarkable Nature Conservation Day program on July 28, 2018 at 10 AM, centered on the theme of **AQUAPONICS**. The event was inaugurated by the esteemed Head of the Department Mr. Abdul Kahder. This shows as management students how they have interest and commitment in making sustainable agriculture and its intention to serve as a role model for the academic community. Throughout the day the students actively participated in knowing the systems. The program served as a reminder that management too plays a vital role in conserving our natural resources.

PLANTATION OF SAPLINGS IN ASSOCIATION WITH WORLD ENVIRONMENT DAY – PG DEPARTMENT OF COMMERCE

DATE: 05/06/2018

PROGRAMME REPORT

On the occasion of World Environment Day-05-06-2018, the PG Department of Commerce organized a plantation drive in the college campus. The event aimed to raise awareness about the importance of environmental conservation and engage students in activities that promote a greener and healthier environment.

The event started at 10:00 AM with the inauguration by Mohammed Navas.K, Head of the department. Mr.Navas emphasized the need for preserving our natural resources and encouraged students to take an active role in environmental conservation.

A total of 35 students enthusiastically participated in the plantation activity. The program committee arranged saplings of various native tree species, suitable for the local climate and ecosystem. Before commencing the plantation, a brief session was conducted to educate the students about the benefits of trees, their role in combating climate change, and the significance of World Environment Day.

Under the guidance of commerce department faculty members, the students planted the saplings in designated areas within the college campus. They carefully prepared the soil, dug holes, and placed the saplings, ensuring proper spacing and alignment. The participants were also provided with information on how to care for the saplings, including watering, mulching, and protecting them from pests and diseases.

The plantation activity proved to be a great success in promoting environmental consciousness among the students. It provided them with hands-on experience in contributing to a greener world. The PG Department of Commerce expressed its gratitude to all the participants and the organizing team for their efforts in making the event a success.

ENVIRONMENTAL ACTIVITY ON CAMPUS CLEANING CAMPAIGN- PG DEPARTMENT OF COMMERCE

DATE: 05/09/2019

PROGRAM REPORT

On September 5, 2019, Post Graduate Department of Commerce organized a campus cleaning campaign for postgraduate students. The objective of the campaign was to promote cleanliness and hygiene on the campus and instil a sense of responsibility among the students towards maintaining a clean environment.

The program started with a welcome message by Sivakumar K, Assistant Professor & HOD of Post Graduate Department of Commerce. After the welcome message straight into the program. The campus cleaning campaign witnessed an encouraging level of student engagement and participation. Postgraduate students from the Department of Commerce actively contributed their time and effort to make the event successful. The campaign not only provided an opportunity for students to contribute to the welfare of their educational environment but also fostered a sense of unity and responsibility among them. The program were concluded by the vote of thanks of Junaid.v, Assistant professor, Post Graduate Department of Commerce.

NATURAL CONSERVATION DAY DEBATE COMPETITION - PG DEPARTMENT OF SOCIAL WORK AND SOCIOLOGY

DATE : 28/07/2019

PROGRAMME REPORT

On the 28th of July, 2019, the Postgraduate Department of Social Work and Sociology hosted a compelling and thought-provoking debate competition in honor of Natural Conservation Day. The event, held within the campus premises, witnessed enthusiastic participation from students, faculty, and conservation enthusiasts alike.

The competition aimed to raise awareness about the crucial need for environmental preservation and sustainable practices. Participants engaged in fervent debates, discussing pressing issues such as deforestation, climate change, biodiversity loss, and the significance of adopting eco-friendly lifestyles.

The debates were characterized by insightful arguments, comprehensive research, and a passionate exchange of ideas. Participants eloquently presented their viewpoints, emphasizing the urgency of collective action to safeguard our planet's resources for future generations.

The event not only encouraged critical thinking and public speaking skills but also served as a platform to ignite a sense of responsibility towards nature conservation among the attendees.

The Department commended the participants for their active involvement and dedication, reinforcing the commitment to promoting environmental consciousness through such engaging initiatives.

WORLD TOURISM DAY OBSERVATION - PG DEPARTMENT OF SOCIAL WORK AND SOCIOLOGY

DATE: 27/09/2020

PROGRAMME REPORT

On the occasion of World Tourism Day 27/09/2020, the PG Department of Social Work and Sociology conducted a programme highlighting the significant role of tourism in rural development. This symbiotic relationship has shown promising outcomes in bolstering local economies and preserving natural ecosystems.

Tourism acts as a catalyst for rural development by generating income and employment opportunities for local communities. By showcasing the region's cultural heritage, unique traditions, and picturesque landscapes, tourism attracts visitors and fosters cultural exchange. However, a careful balance must be maintained to ensure sustainable practices that minimize negative environmental impacts.

To harness the benefits of tourism while safeguarding the environment, collaboration between local governments, communities, and tourism stakeholders is crucial. This entails the implementation of eco-friendly initiatives, waste management strategies, and conservation efforts. By promoting responsible tourism, we can celebrate World Environment Day with a commitment to nurturing our planet's beauty while empowering rural areas through thoughtful and inclusive development.

BEAUTIFICATION OF CAMPUS - GARDENING- PG DEPARTMENT OF COMMERCE

DATE: 30/10/2021

PROGRAMME REPORT

Post Graduate Department of Commerce organized a gardening activity for B.Com CA students on October 30, 2021 at the college campus. The purpose of this activity was to promote environmental awareness and encourage students to engage in sustainable practices.

The program started with the silent prayer followed by the welcome speech by Sivakumar, Assistant Professor and Head of the Department of commerce. After that, Muhammed Ashraf M, Associate professor and Vice Principal of the college gave a facilitation to the program. The gardening activity commenced at 10:10 AM, with a group of enthusiastic B.Com CA students participating in the event. The venue, the college campus, provided a suitable area for the students to plant and nurtures various plants and flowers.

The students actively participated in the event, gaining practical knowledge about gardening techniques and plant care. It was a valuable learning experience that fostered a sense of responsibility towards the environment and sustainable practices. The program was concluded by the vote of thanks of Muhammed Ramees P, Assistant professor, Post Graduate Department of Commerce.

POSTER MAKING COMPETITION – PG DEPARTMENT OF GENERAL BIOTECHNOLOGY

DATE: 05/06/2021

PROGRAMME REPORT

Hosting a hand-drawn poster making competition for World Environment Day 05/06/2021 is a great way to raise awareness and engage people in environmental conservation. Here are some tips and suggestions to make your competition a success:

Choose a specific theme related to environmental issues or sustainability for the posters. For example, you could focus on topics like climate change, biodiversity conservation, plastic pollution, renewable energy, or sustainable lifestyles. Having a specific theme will help participants to channel their creativity and create impactful posters.

Clearly outline the guidelines and rules for the competition. Specify the size, medium (hand-drawn), and any other requirements for the posters. Mention the eligibility criteria, entry deadline, and how to submit the entries. It's also essential to mention any criteria for disqualification, such as offensive content or plagiarism. Promote the competition through various channels to attract participants. Utilize social media platforms, local newspapers, schools, colleges, and community organizations to spread the word. Create eye-catching posters or digital graphics to share online and encourage people to participate and support the event.

Offer attractive prizes to motivate participants. Consider prizes such as art supplies, eco-friendly products, books on environmental conservation, or even cash rewards. You can also collaborate with local businesses or organizations to sponsor the prizes.

Assemble a panel of judges who have expertise in art and environmental conservation. Clearly define the judging criteria, which may include creativity, relevance to the theme, artistic skills, and the overall impact of the poster. Ensure that the judging process is fair and transparent.

Organize an exhibition to showcase the posters and raise awareness about environmental issues. Select a suitable venue such as a community center, gallery, or public park. Host an awards ceremony to announce and celebrate the winners. You can invite local officials, environmental activists, and community members to attend the event.

Consider the environmental impact of the competition itself. Opt for sustainable practices, such as using recycled paper for promotional materials and minimizing waste during the event. Encourage participants to reuse or recycle their materials after the competition.

Remember to document the event through photographs and videos, and share them on social media and local platforms to inspire others and create a lasting impact.

JAL SHAKTHI - WATER CONSERVATION AWARENESS PROGRAM

PG DEPARTMENT OF GENERAL BIOTECHNOLOGY

DATE: 22/03/2023

PROGRAMME REPORT

This report to provide an overview and summary of the "Jal Shakthi" Water Conservation Awareness Program conducted by the PG Department of General Biotechnology for Gems College students on 22nd March 2023, in connection with World Water Day. The program aimed to raise awareness about water conservation and promote responsible water usage among the college community. As part of the event, the PG students created a rangoli in front of the college campus to engage and educate the participants. Objectives:

- Raise awareness about the importance of water conservation.
- Promote responsible water usage among Gems College students.
- Engage the college community in meaningful conversations about water conservation.
- Showcase the creativity and artistic skills of the PG students.

The program took place on 22nd March 2023 at the Gems College campus. The program primarily targeted Gems College students, with a focus on undergraduate and postgraduate students from various disciplines. Rangoli Creation: The PG students from the Department of General Biotechnology created a vibrant rangoli in front of the college campus. The rangoli served as a visual representation of the importance of water conservation and caught the attention of the participants. Expert speakers were invited to deliver presentations on water conservation, sustainable water management practices, and the global water crisis. These talks aimed to provide the participants with a deeper understanding of the subject and inspire them to take action. Interactive sessions were organized to encourage active participation and discussion among the students. They had the opportunity to share their thoughts, ideas, and experiences related to water conservation.
