WORLD TOURISM DAY OBSERVATION: WEBINAR ON TOURISM AND RURAL DEVELOPMENT- PG DEPARTMENT OF SOCIAL WORK AND SOCIOLOGY

DATE: 27.09.2020

PROGRAMME REPORT

On the occasion of World Tourism Day 2020, the PG Department of Social Work and Sociology conducted a programme highlighting the significant role of tourism in rural development. This symbiotic relationship has shown promising outcomes in bolstering local economies and preserving natural ecosystems.

Tourism acts as a catalyst for rural development by generating income and employment opportunities for local communities. By showcasing the region's cultural heritage, unique traditions, and picturesque landscapes, tourism attracts visitors and fosters cultural exchange. However, a careful balance must be maintained to ensure sustainable practices that minimise negative environmental impacts.

To harness the benefits of tourism while safeguarding the environment, collaboration between local governments, communities, and tourism stakeholders is crucial. This entails the implementation of eco-friendly initiatives, waste management strategies, and conservation efforts. By promoting responsible tourism, we can celebrate World Environment Day with a commitment to nurturing our planet's beauty while empowering rural areas through thoughtful and inclusive development.
