15 DAY CHALLENGE PROGRAMME TO RELIEVE COVID 19 STRESS:-COLLEGE STUDENTS UNION

DATE: 06.04.2020

PROGRAMME REPORT

During the challenging period of quarantine due to the COVID-19 pandemic, the College Union of the academic year 2018-19 initiated the "15-Day Challenge Programme" to engage students and promote their skills and creativity while staying at home. The programme utilised various online platforms for participation and interaction. All these activities were conducted through online platforms to maintain social distancing and prevent the spread of COVID-19. The 15-Day Challenge Programme witnessed active participation from students, who embraced the opportunity to channel their creativity and learn new skills. The online nature of the programme allowed for easy submission and sharing of content, fostering a sense of community even in the face of physical isolation. The programme not only kept students engaged during quarantine but also helped them develop new skills, share their passions, and connect with their peers in a time when physical interactions were limited. It promoted a sense of resilience and adaptability in the face of challenging circumstances. The 15-Day Challenge Programme organised by the College Union in 2018-19 successfully utilised online platforms to keep students engaged, creative, and connected during a period of quarantine. It served as an example of how virtual initiatives can bring the college community together even in challenging times.

SHE ACCESS: WOMEN EMPOWERMENT PROGRAM - WOMEN DEVELOPMENT CELL

DATE:03.01.2020

PROGRAMME REPORT

On January 3, 2020, 10 am the Women Development Cell of GEMS Arts and Science College, Ramapuram, organized a significant Women Empowerment Program titled "SHE ACCESS." The event took place at the Rooftop Auditorium and was conducted by Mrs. Valsala, a Senior Police Officer from Malappuram. The program aimed to empower women with knowledge, skills, and resources to enhance their safety, confidence, and overall well-being. SHE ACCESS was a comprehensive program designed to address the safety concerns and challenges faced by women in various aspects of their lives. Through interactive sessions and expert guidance, the program aimed to equip women with practical strategies to enhance their personal safety and empower them to navigate the world with confidence. The event began with a warm welcome from Mrs. Seethal, Coordinator, The Women's Development Cell, highlighting the importance of women's safety and empowerment. Participants were encouraged to actively engage in the discussions and activities planned for the day. Mrs. Valsala, the Senior Police Officer, delivered a keynote address, sharing valuable insights into personal safety, self-defence techniques, and legal rights. Her extensive experience and expertise in law enforcement provided participants with valuable perspectives on staying safe in various situations.

AIDS DAY AWARENESS: DRAMATIC MIME-COLLEGE STUDENTS UNION

DATE:02.12.2019

PROGRAMME REPORT

The College Union of the academic year 2018-19 organised an impactful AIDS Day awareness programme on December 2, 2019. The event took place in the college corridor at 12:30 p.m. The aim of this program was to spread awareness about AIDS and promote understanding and support for those affected by the disease. One of the main highlights of the programme was a dramatic mime performance, which effectively conveyed the message about the importance of AIDS awareness and prevention. The mime portrayed the struggles and challenges faced by individuals living with HIV/AIDS and emphasised the significance of empathy and support in our society. The event witnessed active participation from students, faculty, and staff. The thought-provoking mime performance left a lasting impact on the audience, making them more aware of the issues surrounding AIDS. The College Union's AIDS Day awareness programme in 2018–19 was a commendable effort to educate and sensitise the college community about the importance of AIDS awareness. The dramatic mime performance was a creative and engaging way to convey the message and foster a more compassionate and informed society. It is recommended that such awareness programmes continue in the future to keep the issue of AIDS in the public consciousness and encourage support for those affected by the disease.

DEBATE COMPETITION ON "WHETHER GENDER EQUALITY IS SCIENTIFIC"- PG DEPARTMENT OF COMMERCE

DATE:13.11.2019

PROGRAMME REPORT

On November 13, 2019, the PG Department of Commerce organised a debate competition on the topic "Gender Equality: Is It Scientific?" The event aimed to encourage critical thinking and have a healthy discussion among participants about whether there is scientific evidence supporting gender equality. The competition had 35 enthusiastic participants who presented their viewpoints on the topic with great enthusiasm. The debate was conducted in class no. 606 at 1.30 p.m. The event started with a warm welcome speech by Mr. Sivakumar K., Head of the Department (HOD), The HOD warmly welcomed all the participants, faculty members, and principal. The inauguration was attended by Mr. Naveen Mohan, Principal of GEMS Arts & Science College, Ramapuram. In his opening speech, Sir highlighted the importance of open dialogue and debate in promoting scientific thinking. He emphasised the relevance of gender equality in today's society and encouraged participants to explore the scientific aspects of this important topic. The principal praised the efforts of the organising committee for arranging such an intellectually stimulating event. The debate competition saw the participation of 35 individuals who were divided into pro and con teams. Each participant had a specific time limit to present their arguments, followed by a question-and-answer session. The debaters discussed various aspects related to gender equality, considering scientific, social, and cultural perspectives. They presented arguments analysing biological, psychological, and sociological factors that contribute to either gender equality or inequality. The participants effectively used research findings, historical references, and current examples to support their arguments. The competition was judged by faculty members who evaluated the participants based on their content, delivery, persuasion skills, and ability to counter opposing views. The judges assessed the logical coherence of arguments and the ability to respond effectively to challenging questions. The event ended with a vote of thanks by Ms. Saritha, a respected faculty member of the PG Department of Commerce.

NATIONAL CANCER AWARENESS DAY: SLOGAN MAKING COMPETITION-PG DEPARTMENT OF MICROBIOLOGY

DATE:07.11.2019

PROGRAMME REPORT

In recognition of National Cancer Awareness Day, observed on November 7th each year, the Department of Microbiology organised a slogan-making competition. The event aimed to raise awareness about cancer and promote its prevention and early detection. With the participation of eight individuals, the competition proved to be an engaging and educational activity. The Department of Microbiology hosted a slogan-making competition in Room No. 408 at 11:00 a.m. The competition provided an opportunity for students and faculty members to express their creativity and develop impactful slogans that would resonate with the public. The event aimed to contribute to the ongoing efforts to raise awareness about cancer and emphasise the importance of early detection. Participants were given a set time to create slogans that focused on raising awareness about cancer, encouraging healthy lifestyle choices, promoting regular screenings, and advocating for support and empathy for cancer patients and survivors. Each participant presented their slogan before the panel of judges, which consisted of faculty members from the Department of Microbiology. The slogans were evaluated based on creativity, clarity, and effectiveness in conveying the intended message. After careful consideration, the judges declared the winner of the competition. The winning slogan was selected based on its impactful message and ability to inspire action towards cancer awareness. The Department of Microbiology successfully organised a slogan-making competition to commemorate National Cancer Awareness Day. The event brought together 8 participants, including faculty members and students, who showcased their creativity and dedication to raising awareness about cancer prevention and early detection. By organising such events, the department aimed to contribute to the larger objective of spreading awareness about cancer, emphasising the importance of healthy lifestyle choices, and encouraging regular screenings. It also provided an opportunity for participants to develop their communication and creative skills while addressing a significant public health issue.

CAMPUS CLEANING CAMPAIGN-PG DEPARTMENT OF COMMERCE

DATE:05.09.2019

PROGRAMME REPORT

On September 5, 2019, the Postgraduate Department of Commerce organised a campus cleaning campaign for postgraduate students. The objective of the campaign was to promote cleanliness and hygiene on the campus and instill a sense of responsibility among the students towards maintaining a clean environment. The programme started with a welcome message from Sivakumar, assistant professor and head of the postgraduate department of mmerce. After the welcome message, straight into the program. The campus cleaning campaign witnessed an encouraging level of student engagement and participation. Postgraduate students from the Department of Commerce actively contributed their time and effort to make the event successful. The campaign not only provided an opportunity for students to contribute to the welfare of their educational environment but also fostered a sense of unity and responsibility among them. The programme was concluded by the vote of thanks from Muhammed Navas K., assistant professor, Postgraduate Department of Commerce.

MONSOON AWARENESS CAMPAIGN- PG DEPARTMENT OF MICROBIOLOGY

DATE:20.07.2019

PROGRAMME REPORT

On July 20, 2019 PG Department of Microbiology GEMS Arts and Science College, Ramapuram, organised a monsoon awareness class titled "How to Say No to Monsoon Diseases." The objective of the class was to educate the local community about common monsoon diseases, such as dengue, viral fever, malaria, and cholera, and provide them with knowledge on prevention measures. The programme was led by the college principal, Mr. Naveen Mohan, and the head of the microbiology department, Ms. Radhika R. Krishna. The monsoon awareness class aimed to make the common people in the neighbourhood of GEMS College aware of the potential risks associated with monsoon diseases and to emphasise the importance of taking preventive measures. The students from the Microbiology Department played a pivotal role in organising and conducting the class. During the class, the students educated the attendees about the common monsoon diseases prevalent in the area, including dengue, viral fever, malaria, and cholera. They discussed the symptoms, modes of transmission, and potential consequences of these diseases. Through informative presentations and interactive discussions, the students successfully conveyed the importance of being cautious during the monsoon season. The students emphasised various preventive measures to combat monsoon diseases. They provided detailed information on maintaining proper hygiene, such as regularly washing hands, keeping the surroundings clean, and preventing water stagnation. Additionally, they highlighted the significance of using mosquito repellents, wearing protective clothing, and ensuring the cleanliness of water sources. Recognising the tendency towards self-medication during monsoon illnesses, the awareness class emphasised the importance of consulting a doctor rather than self-treating. The students educated the attendees on the risks associated with improper medication and stressed the need to seek professional medical advice for accurate diagnosis and appropriate treatment. The monsoon awareness class was effectively organised and led by Mr. Naveen Mohan, the college principal, and Mrs. Radhika, the head of the microbiology department. Their guidance and support were instrumental in the success of the program.
