OBSERVATION VISIT

The PG Department of Social Work and Sociology, GEMS Arts and Science College, has recently conducted an observation visit for MSW students (Batch-2021-22) to Amma Multi-Specialty Clinic, Cheruplassery, Kerala. Amma Multi-Specialty Clinic is a renowned healthcare facility dedicated to providing comprehensive and top-quality medical services to the community. With a team of highly skilled and experienced healthcare professionals, the clinic offers a wide range of specialised medical services, ensuring that patients receive personalised care tailored to their unique needs. The clinic boasts state-of-the-art diagnostic equipment and modern treatment modalities, ensuring accurate diagnoses and effective treatment plans. The services offered encompass various medical fields, including internal medicine, paediatrics, gynaecology, dermatology, orthopaedics, and more. Amma Multi-Specialty Clinic prides itself on its commitment to patient well-being, with a focus on compassionate care and patient education. Conveniently located, the clinic aims to improve accessibility to healthcare services for all, promoting a healthier and happier community. Patients can trust Amma Multi-Specialty Clinic for their healthcare needs, as it continues to be a trusted source of medical expertise and excellence in the region.

PROGRAMME REPORT

OBSERVATION VISIT

The P G Department of Social Work and Sociology, GEMS Arts and Science College, has recently conducted an observation visit for MSW students (Batch-2021-22) to Totem Rural Agricultural Centre in Agali, Palakkad district, Kerala. The Totem Rural Agricultural Centre in Agali, an NGO dedicated to agricultural development, plays a pivotal role in transforming the agricultural landscape of the region. During my recent visit, I witnessed the center's impactful work firsthand. The organization has been actively engaged in providing farmers with valuable training in modern farming techniques, sustainable practices, and crop diversification. This has not only increased agricultural productivity but also improved the economic well-being of local farmers. Moreover, the center focuses on promoting organic farming and environmental conservation. They have successfully introduced organic farming methods, reducing the reliance on harmful chemicals and promoting healthier produce.

PROGRAMME REPORT

TRIP TO FERN HILL, OOTY

Under the auspices of the PG Department of English Language and Literature, a cultural trip was organised to Fern Hill, Ooty, well known for its serenity and literary prominence. The final-year BA English students were taken on the trip on August 2, 2022, accompanied by the teaching faculties, Mr. Rihas KT, Mr. Vijayesh Babu P, and college librarian Mrs. Smitha Pramod. The team enjoyed the profound connection between nature and the human soul while sitting there. The ashram traces its origins to Guru Nithya Chaithanya Yati's teachings and scriptures. The discipline of the forest, the chirping of the birds, and the music of the streams flowing down all combine to open up the meanings of the universe. The Gurukula, which is spread over an area of four acres, is rich in crops. The Gurukul has a splendid library with a lot of eminent classics and a lot of other genres of books. The perfect place for any literary aspirant Students were taken to the meditation hall, where they experienced exclusive spiritual calmness amidst all the chirping of birds outside. The team had a great chance to probe over the rare classics preserved in the library, as well as some beautiful portraits and sculptures. It was truly a mind-awakening visit to Fern Hill.

PROGRAMME REPORT

MSW 2022-23 Batch of PG Department of Social Work and Sociology, GEMS Arts and Science College visited Thalassery Social Service Organization in Kerala, India. The organization is dedicated to uplifting the underprivileged communities in the region through a variety of initiatives. During the visit, students were deeply impressed by their commitment to education. They run a school for disadvantaged children, providing them with quality education, nutritious meals, and a safe environment. It was heartwarming to see the enthusiasm of the students and the dedication of the teachers. Furthermore, the organization operates a vocational training center, empowering local women with skills that enable them to become financially independent. Their healthcare outreach Programme is also commendable, offering medical assistance to those in need. The Thalassery Social Service is a beacon of hope for the marginalized in the community. Their tireless efforts to bring about positive change are truly inspiring.

PROGRAMME REPORT

FIELD STUDIES TO SOUTHERN AND NORTHERN STATES

PG Department of Applied Geology conducted an extensive field trip along the parts of different states of India as the field trip is essential part in the geology scenario. Through the field trip students could improve their observation skills and could enhance their practical knowledge. The geology department under the guidance Dr. K Gopalakrishna conducted a field traverse along some parts of Kerala, Karnataka, Maharashtra and Rajasthan. It was detailed field study in which students came across different structural features like different types of folds, joints etc. They also collected exclusive and precious varieties of rocks and minerals which made the field study worthwhile. The trip was organized by Mr. Abdul Rahman C V Head of the department along with other faculties. The trip was about 12 days from 8th October 2019 to 17th October 2019. The trip was arranged for 3rd B.Sc. geology students. About 36 students actively indulged in the field study.

PG DEPARTMENT OF APPLIED GEOLOGY

2019-2020

PROGRAMME REPORT

As part of university curriculum of BSc geology of Calicut university field study forms an integral part. PG Department of applied geology conducted field studies along the various parts of Kerala and Karnataka under the guidance of Dr. K Gopalakrishna, Mr. Abdul Rahman C V. The field study was conducted in geologically important parts of Kerala and also important geological locations of Karnataka. Through the field work various field samples were collected by the students for further analysis and they also witnessed various structural and geological features portrayed by the nature. Large number samples were collected from the field to decorate the museum established by the department. The field study was conducted for 3rd year B.Sc students from 28th February 2020 to 5th March 2020 which has duration of about 7 days. About 35 students took part in the study.

2018-2019

PROGRAMME REPORT

FIELD VISIT 1: VISIT TO LANDSLIDE PRONE AREA

The Department of Geology conducted a field visit to a landslide-prone area near Kannapamchola in Calicut, Kerala, as an extensional activity on November 27, 2018. About 35 students visited the landslide-prone area, where they conducted an extensive field survey under the guidance of Abdul Rahman C. V., Sajith Sadanandan, and Tinu C. K. The aim of the survey was to analyse the entire area and suggest some remedial measures to the residents. As a part of the survey, vulnerable slopes of the area were studied, and other parameters were observed. The slope stability of the entire area was analysed, and risk factors were studied. Based on the study, various spots were recognised as vulnerable, and remedial measures were suggested to the landslide vulnerable community.

FIELD VISIT 2: FIELD TRAVERSE ALONG KERALA AND KARNATKA

Field study forms an integral part of the B.Sc. Geology curriculum at Calicut University. The Department of Geology at GEMS College conducted an extensive field study along parts of Kerala and Karnataka. The entire field study was led by Dr. K. Gopalakrishna and Mr. Abdul Rahman C. V., Head of the Department. Through the field study, various parts of Kerala and Karnataka were studied, which have huge geologic importance. Precious samples of rocks and minerals were collected by students through their field traverse of regions in Kerala and Karnataka. The field study was done by 2nd-year B.Sc. students from March 5th, 2019 to March 11th, 2019. Through 7 days of field work, they gathered knowledge regarding how to approach the field and interpret geological information from the field. About 36 students participated in the field study.
