DEPARTMENT OF MANAGEMENT STUDIES

TOPIC: INVESTOR EDUCATION PROGRAM (IEP) ON BSE CAPITAL MARKET AWARENESS

PROGRAMME REPORT

The Department of Management Studies, in association with IQAC, conducted an Investor Education Programme (IEP) on behalf of BSE on Capital Markets, Introduction to Mutual Funds, and Financial Planning for 3rd and 5th semester students of Management Studies on July 27, 2022, at 10:30 a.m., at our rooftop auditorium. The resource person was Mr. Venugopal, Senior Associate of Lotus Knowledge Wealth (LKW). 52 students attended the session. The entire session was mainly related to the workings of the capital market, a detailed description of mutual funds, and the importance of financial planning. Students actively participated in the programme, and at the end of the session, they clarified their doubts on the topic. It was a wonderful experience for the students because they got an opportunity to learn about the practical side of the capital market. The session also included group activities which helped the students to improve their team work skills.

PG DEPARTMENT OF GENERAL BIOTECHNOLOGY

TOPIC: FLUORESCENCE MICROSCOPY: AN INSIGHT INTO MICROENVIRONMENTS

PROGRAMME REPORT

Fluorescence microscopy is a powerful imaging technique that utilizes the fluorescent properties of certain molecules to visualize specific structures and processes within biological samples. This report provides an overview of the program on fluorescence microscopy titled "An Insight into Microenvironments," which took place on September 25, 2021, from 12:00 AM to 1:00 PM. There were 27 participants in total.

The program aimed to explore the applications and significance of fluorescence microscopy in studying microenvironments, particularly in biological systems. It sought to provide participants with an understanding of the principles behind fluorescence microscopy and its role in elucidating the complex interactions and dynamics within microenvironments.

The program followed the following agenda:

Introduction to Fluorescence Microscopy (12:00 AM - 12:15 AM):

- Explanation of basic principles of fluorescence microscopy.
- Overview of fluorophores and their properties.
- Introduction to the excitation and emission processes. Imaging Techniques and Instrumentation (12:15 AM - 12:30 AM):
- Discussion of various imaging techniques, including confocal microscopy, total internal reflection fluorescence (TIRF) microscopy, and super-resolution microscopy.
- Overview of the instrumentation involved in fluorescence microscopy, such as light sources, filters, and detectors.

The program successfully provided participants with a comprehensive understanding of fluorescence microscopy and its significance in studying microenvironments. Through an informative agenda and live demonstrations, participants gained insights into the principles, techniques, and applications of fluorescence microscopy. The program fostered knowledge exchange and encouraged further exploration in the field.

TOPIC: EMPOWER YOUR SPIRIT – YOGA PRACTICE

PROGRAMME REPORT

As part of the Student Induction Program, the Department of Multimedia organised a session on yoga, titled, "Empower Your Spirit – Yoga Practice". The session commenced at 9:30 am, on 16th September 2022, in room number 203, with Muhammed Binshad K, Assistant Professor, Department of Multimedia as the resource person. Heskilfully guided 34 active participants who took part in the session. Following the Yoga session, Muhammed Binshad K also delved into different study techniques, time management, and effective learning strategies, with an aim to help students excel in academics.

The session was thoughtfully crafted to include practical examples and, actively engaging students and fostering their interest in Yoga. The program served as a robust platform for students to interact with faculty, pose questions, and gain a comprehensive understanding of the department's offerings.

TOPIC: SPEECH COMPETITION

PROGRAMME REPORT

A speech competition was organized by the PG Department of General Biotechnology on September 12, 2021, via Google Meet. The event was held to commemorate World First Aid Day and raise awareness about the importance of first aid in emergency situations. The aim was to encourage participants to acquire knowledge and skills in first aid and promote a culture of safety and preparedness. After the keynote speech, the main highlight of the event, the speech competition, began. The competition was open to all participants, allowing them to showcase their knowledge and public speaking skills while raising awareness about first aid. Participants were given a specific time limit to present their speeches, which were evaluated based on content, delivery, and overall impact. Once all the speeches were concluded, the panel of judges convened to assess the participants' performances and determine the winners.

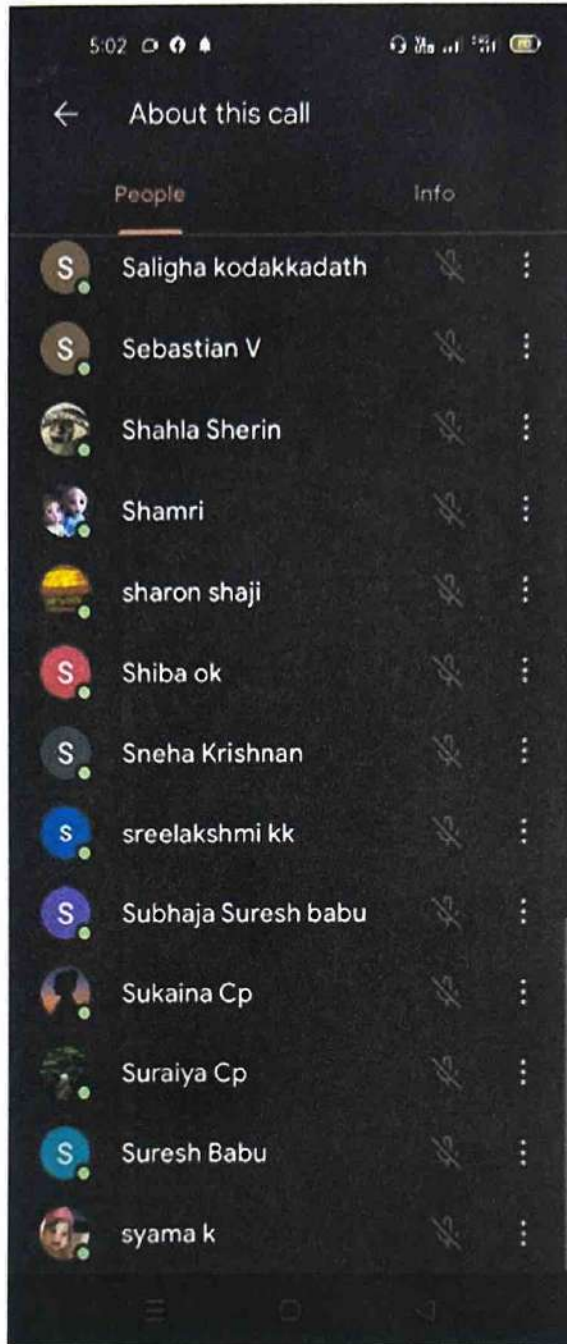

The judging criteria included clarity of speech, depth of content, use of supporting materials, and presentation skills. After the judges' deliberation, the winners were announced, and the prizes were distributed to the deserving participants. The prizes consisted of certificates of achievement, trophies, and books on first aid and emergency response. 27 students actively participated in the programme. The event concluded with closing remarks, expressing gratitude to the participants, judges, and everyone involved in organizing the successful event. The program and speech competition received positive feedback from the participants, who expressed their gratitude for the opportunity to learn and present their ideas. The event provided a platform for fostering public speaking skills, promoting first aid awareness, and encouraging participants to take concrete steps towards acquiring first aid training. The program and speech competition organized by the PG Department of General Biotechnology, effectively highlighted the significance of World First Aid Day and successfully raised awareness about the importance of first aid. The event provided a platform for participants to enhance their knowledge, develop public speaking skills, and contribute to promoting first aid awareness within their communities.

DEPARTMENT OF MANAGEMENT STUDIES

TOPIC: HOW TO ENRICH COMMUNICATION SKILL

PROGRAMME REPORT

On September 15, 2022, the Department of Management Studies conducted a student induction program with the objective of enhancing communication skills. The session was held from 1:30 PM to 2:30 PM at room 210 and was facilitated by Mr. Sandeepan K.M (HOD, Department of Management studies). A total of 41 students actively participated in the program, showing enthusiasm for improving their communication skills. Mr. Sandeepan K.M, an experienced faculty member, led the session with a focus on practical techniques and strategies to enrich communication skills. The program covered various aspects, including: Verbal Communication, Interpersonal Communication: Building rapport, empathy, and resolving conflicts through effective communication, Communication in a Professional Setting etc. Student feedback was overwhelmingly positive, with participants expressing their appreciation for the practical knowledge and skills gained during the program. Many highlighted the interactive nature of the session and its relevance to their academic and professional development. It provided valuable insights and tools for students to improve their communication abilities, a crucial skill for their future careers in management.

PG DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE

TOPIC: THE NECESSITY OF READING

PROGRAMME REPORT

A webinar on “The Necessity of Reading” was conducted by the PG Department of English Language and Literature on 6th January 2021 through Google Meet, at 2.30 p.m. The resource person was Rihas KT, Assistant Professor, PG Department of English Language and Literature. The motivational speech on the necessity of reading delivered by Rihas K T emphasized the transformative power and fundamental importance of reading in one's personal and professional life. The speaker passionately articulated the numerous benefits of reading, ranging from enhanced cognitive abilities to increased empathy and understanding of the world around us. The speaker stressed that reading serves as a gateway to knowledge, allowing individuals to continuously learn and expand their horizons. By reading various genres and topics, individuals can deepen their understanding of diverse subjects and cultures. Reading fosters critical thinking and analytical skills, enabling individuals to evaluate information, think critically, and make informed decisions. The speaker emphasized how these skills are invaluable in navigating life's challenges. Through literature, readers can immerse themselves in different perspectives, fostering empathy and understanding toward people with varied backgrounds and experiences. This understanding, the speaker argued, cultivates a more compassionate and harmonious society. The speech concluded by urging the audience to cultivate a habit of reading and incorporate it into their daily lives as a means to unlock a wealth of opportunities, knowledge, and personal growth. There were 53 students in total.

PROGRAMME REPORT

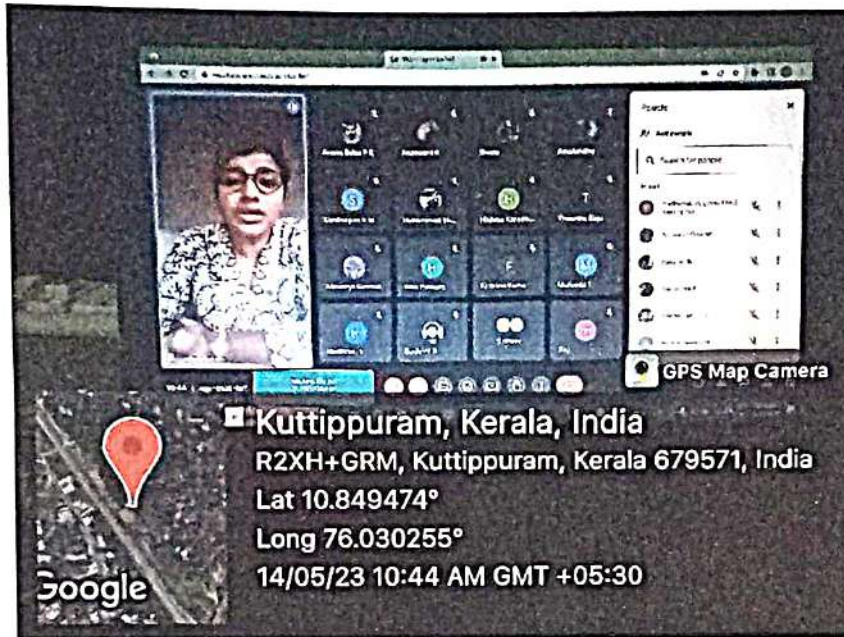

The Department of Mathematics, in association with the Internal Quality Assurance Cell (IQAC) and Women Protection Office Malappuram, organised a webinar on "Women and Technology" on May 14, 2023, at 10:00 a.m. The event aimed to shed light on the current state of women in the tech industry, including their representation in technology jobs and the lack of diversity in tech leadership roles. The webinar received an enthusiastic response, with a total of 30 participants in attendance, including students and faculty from Farook College. The session commenced with Jayasree K. G., WDC Coordinator and Head of the Department of Mathematics, extending a warm welcome to all the participants. The keynote speaker for the webinar was Zilzila Kaladi, the resource person for 'Kanavu', the Women and Child Development Department, Calicut. Zilzila Kaladi shared valuable insights on the challenges faced by women in the tech industry and discussed the current percentage of women in technology jobs. The speaker emphasised the importance of promoting diversity and equality in tech-related fields. At 11:30am, the webinar concluded with Abdul Basheer U, Assistant Professor in the Department of Mathematics, delivering words of appreciation to the speaker and expressing gratitude to all the participants for their active engagement. There were 34 participants in total.

DEPARTMENT OF COMPUTER SCIENCE

TOPIC: BRAIN-COMPUTER INTERFACE

PROGRAMME REPORT

The Department of Computer Science demonstrated its commitment to staying at the forefront of technological advancements by hosting a webinar on the fascinating subject of "Brain-Computer Interface" (BCI) on February 26th, 2021, at 3:30 p.m. A total of 21 students took part in the programme. The event was a testament to the department's dedication to providing valuable insights and knowledge to its students and the wider academic community. The webinar was skillfully orchestrated by Padmaja C, an Assistant Professor within the Department of Computer Science, known for her expertise in the field.

During the session, attendees delved into the intricate world of Brain-Computer Interfaces. This revolutionary technology establishes a direct communication pathway between the human brain and external devices, opening up a realm of possibilities for research, innovation, and healthcare applications. Padmaja C illuminated the audience with a comprehensive understanding of BCI and its real-time applications. The exploration of how BCI can be used in real-world scenarios offered participants a glimpse into the transformative potential of this emerging field, from assisting individuals with disabilities to enhancing human-machine interactions.

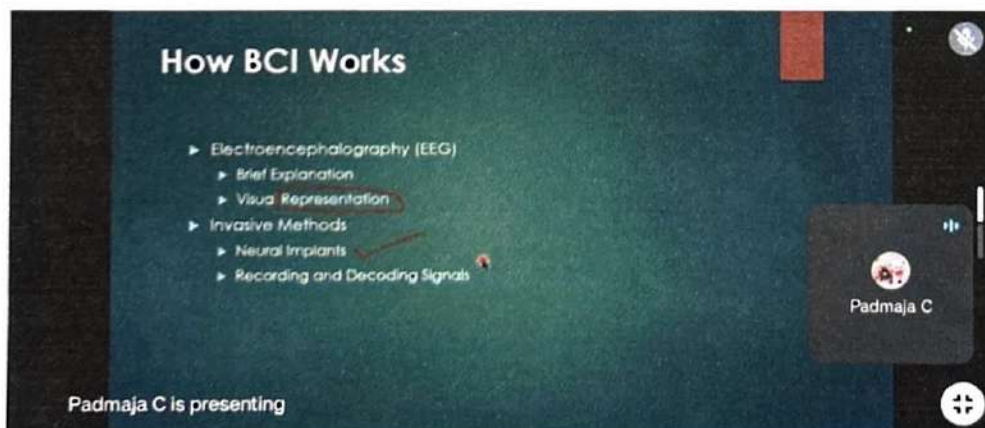

The webinar served as an invaluable platform for both students and professionals to expand their horizons and stay updated on the latest advancements in the world of computer science. The Department of Computer Science's initiative in organizing this event demonstrated its commitment to fostering a culture of learning and innovation, ensuring that its students remain well-equipped to tackle the challenges and opportunities of the ever-evolving technological landscape.
