PROGRAM REPORT

MENDELEY WORKSHOP- AN ONLINE WORKSHOP

20.05.2023

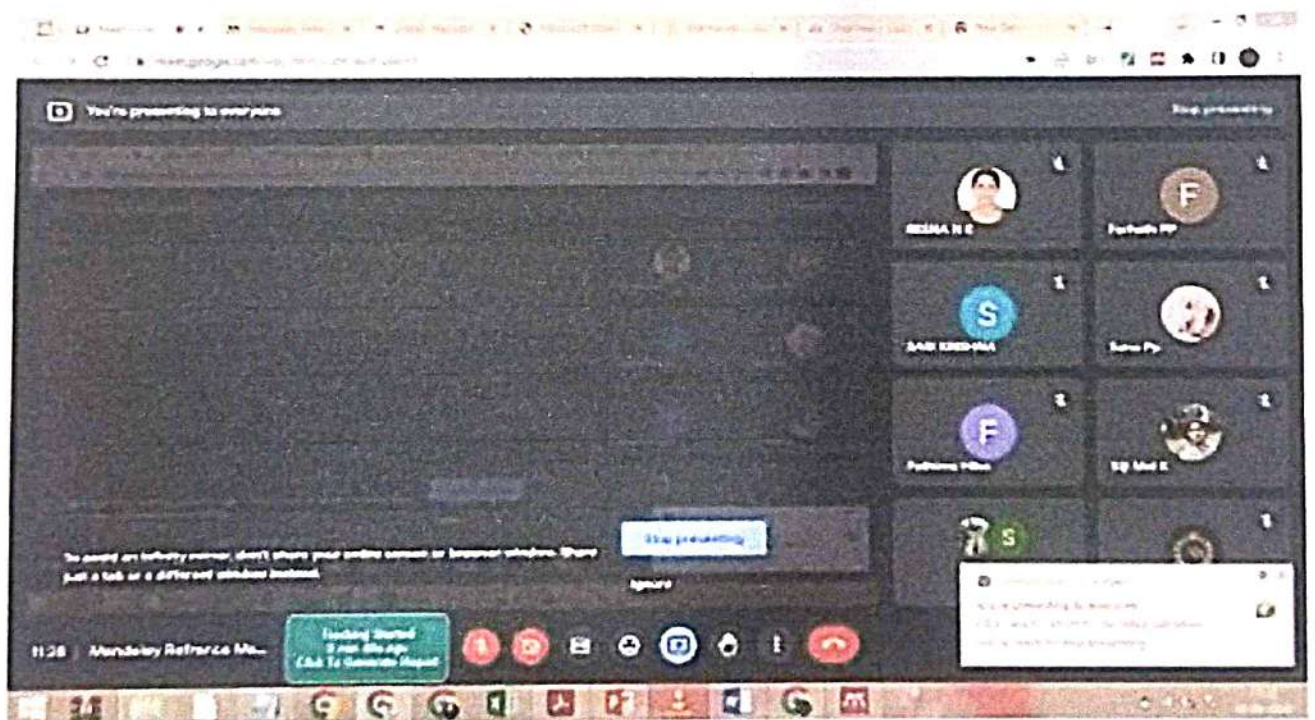

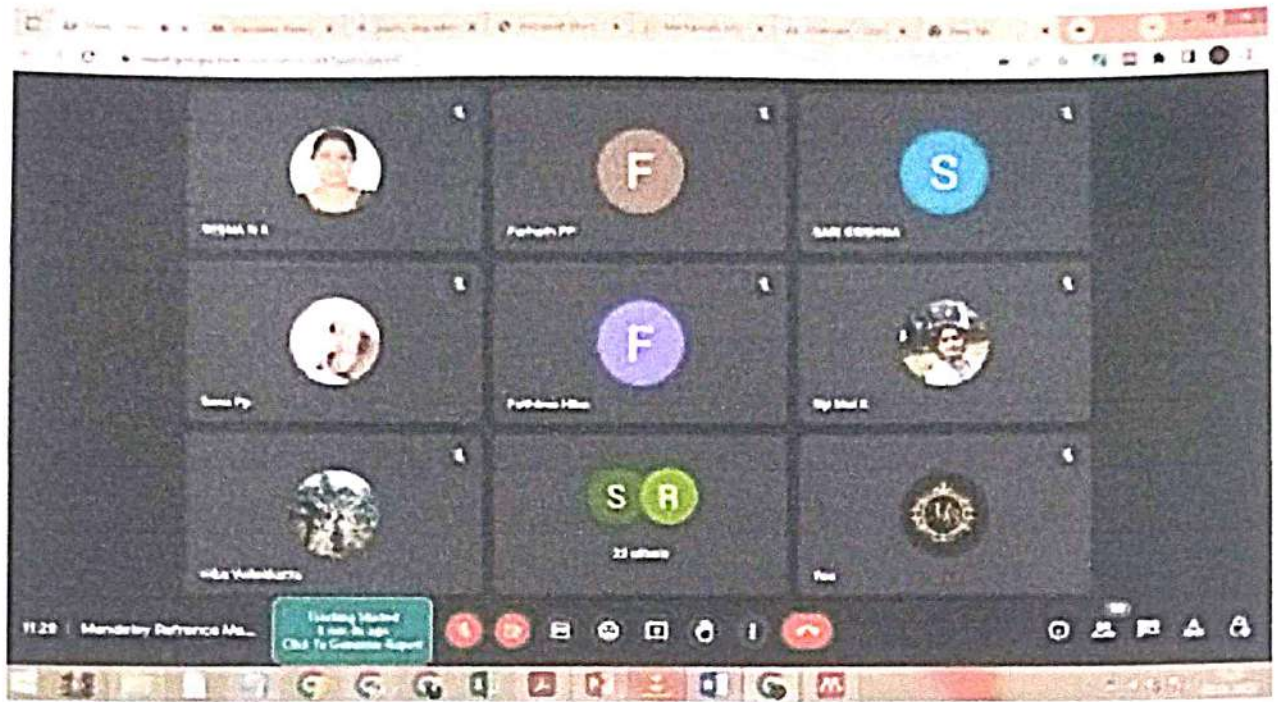

On 20.05.2023, the PG Department of Microbiology, in collaboration with the Internal Quality Assurance Cell (IQAC), organized an online workshop on Mendeley Reference Manager. The workshop aimed to familiarize postgraduate (PG) students and faculty members with the features and functionalities of Mendeley, a popular reference management tool. The resource person for the workshop was Ms. Resna N K, Head of the Department, PG Department of Microbiology. The online workshop commenced at 10:30 am with participants joining via the designated video conferencing platform. The event started with an introduction to the workshop's agenda and an overview of Mendeley by Ms. Resna N K. She highlighted the importance of efficient reference management in academic research and the advantages of using Mendeley. Ms. Resna N K provided step-by-step instructions on how to download, install, and set up Mendeley on different operating systems. She demonstrated the process of importing references from various sources such as databases, websites, and PDF files. Participants were guided through the organizational features of Mendeley, including creating folders, adding tags, and searching for references.

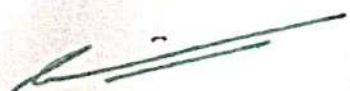

The workshop also focused on managing PDFs within Mendeley, including the ability to highlight and annotate documents. Ms. Resna N K emphasized the collaborative features of Mendeley, such as sharing references and collaborating on projects with colleagues. Ms. Resna N K concluded the workshop by addressing common troubleshooting issues and providing useful tips for maximizing the efficiency of Mendeley. The workshop witnessed active participation from both PG students and faculty members. Participants were encouraged to ask questions and seek clarification throughout the session. Ms. Resna N K responded to the queries and provided additional insights to ensure a comprehensive understanding of Mendeley's functionalities. About 27 students participated in the session.

PROGRAM REPORT

WORKSHOP ON ACADEMIC WRITING

23.01.2023

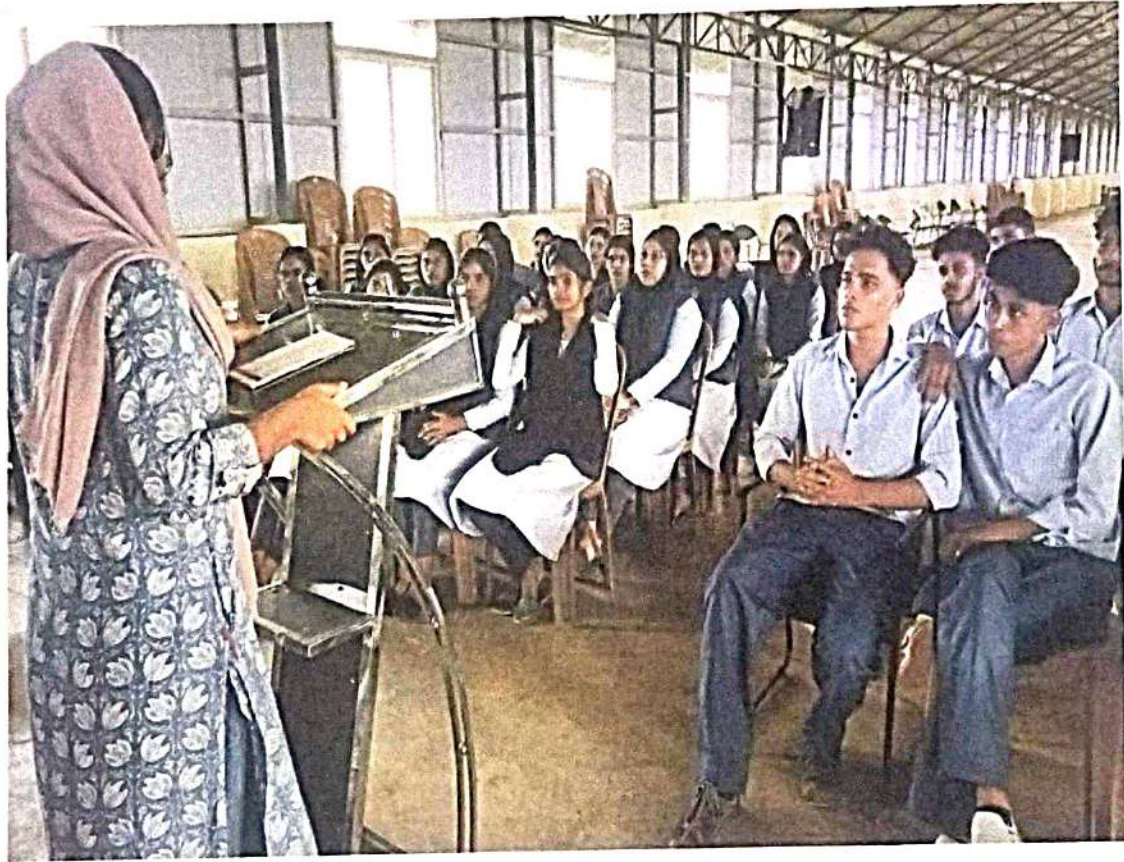

The PG Department of English Language and Literature conducted a workshop on Academic Writing dated 23rd January 2023, 9.30 AM to 11.30 A.M. at the seminar hall. The resource person was Ms. Sulthana Afrosa P P, Assistant Professor of PG Department of English Language and Literature. The Academic Writing Workshop aimed to enhance participants' skills in academic writing, providing valuable insights into effective writing techniques, research methodologies, and citation practices. An interactive session where participants exchanged their work for peer review and constructive feedback. Participants gained valuable insights into academic writing throughout the workshop. Participants provided positive feedback regarding the workshop's content and facilitator's expertise. They appreciated the interactive nature of the sessions and found the peer review process particularly beneficial. Suggestions for improvement included offering more advanced-level workshops in the future.

The Academic Writing Workshop successfully equipped participants with essential skills and knowledge required for effective academic writing. It provided a valuable platform for learning and collaboration, empowering attendees to produce high-quality academic papers in the future. Based on the success of this workshop, it is recommended to continue similar workshops on academic writing in future. Additionally, incorporating advanced topics in future workshops could cater to the needs of participants with more experience in academic writing. 54 students participated in the program.

PROGRAM REPORT
WORKSHOP ON RESEARCH AND SPSS
21.05.2022

PG Department of Social Work and Sociology organised a one-day workshop on Research and SPSS on 21/05/2022 (Saturday) 9.30 AM in the department. The session handled by Mr. RATHEESH KUMAR KS (Faculty, CSB institute of learning and development, CSB Bank) SPSS (Statistical Package for the Social Sciences) is a software program used by researchers in various disciplines for quantitative analysis of complex data. This workshop introduces the SPSS environment, basic data preparation and management, descriptive statistics, and common statistical analysis (T-test, ANOVA, correlation, regression). Hands-on-activity with example data is provided to learn these basics. This workshop is a good start for MSW trainees who are new to SPSS and help you harness this useful analysis tool.

Although the name of SPSS reflects its original use in the field of social sciences, its use has since expanded into other data markets. SPSS is commonly used in healthcare, marketing and education research. The types of data analysed using SPSS are widely varied. Common sources include survey results, organization customer databases, Google Analytics, scientific research results and server log files. SPSS supports both analysis and modification of many kinds of data and almost all formats of structured data. The software supports spreadsheets, plain text files and relational databases such as SQL, SATA and SAS. SPSS provides data analysis for descriptive and bivariate statistics, numeral outcome predictions and predictions for identifying groups. The software also provides data transformation, graphing and direct marketing features. The total number of students participated in this session was eighteen. Although the session was very informative for the trainees to enhance their knowledge in the field of research.

PROGRAM REPORT

TWO DAY WORKSHOP ON 'DESIGN THINKING'

15.11.2018 & 16.11.2018

ICT Academy of Kerala in association with KSUM organized a 2-day workshop on 'Design Thinking' by Sony Bronzon (ALLON Training and Consulting) for aspiring student start-ups at Gems Arts & Science College, Ramapuram on 15th and 16th November 2018. The students reached the location by 9.30 a.m. The workshop made a high impact on students for their career-making plans. The students are grouped into teams and that gives them the experience of working in a company and acquiring leadership skills. Students gave positive feedback that positively charged them to move forward and face challenges. A total of 33 participants were present for the program.
