## ICT FACILITIES

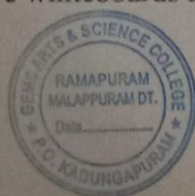

The institution has a system in place to support student-centered learning by utilizing ICT resources to support immersive, interactive, and problem-solving approaches. The teachers promote self-learning, grow inherent talents to domain knowledge, and awaken latent skills through interactive learning. They are well-versed in student-centric approaches. In the classroom, the utilization of digital reality and ICT resources guarantees effective content delivery and creates a sense of experience learning.

Smart boards make it easy to incorporate technology into the classroom, learning has been completely transformed. These interactive whiteboards are effective tools that improve
